

National Traffic System

Traffic and Message Handling

For Skill, Service, and Fun!

The ARRL got it's start to organize message delivery to get messages delivered efficiently, accurately to it's destination by different radio stations. This tradition continues today using CW, voice, and digital.

Why practice traffic handling?

- It teaches operator good skills.
- It gives you valuable skills in times of emergency passing health and welfare messages.
- · You learn how to operate under adverse conditions without power.
- You create friendships and comradery

Any license class can handle traffic even with a basic HT. Ask a mentor, club, or go to nts2.arrl.org for more information. There are nets you can join to learn and practice this skill. Consider Traffic

Handling as part of your Ham Radio experience!
